

Health, Safety and Environmental Representative (HSE)

Kettle River Contracting is currently recruiting a professional individual to join our team as an HSE Representative.

The HSE Representative will be responsible for monitoring onsite construction projects to ensure compliance with project and jurisdictional requirements. The HSE Representative will report directly to the onsite construction team supervisor and indirectly to the General Manager. This position would be field based during the construction season. In the off season, this position may be asked to work with our management and planning teams, from one of our office locations, growing their career and knowledge base.

Job Duties:

- Promote a Safe and Respectful Work Environment
- Promote and Enforce a Professional Site and Labour Force
- Demonstrate the capability to work under the direction of HSE leadership on multiple tasks requiring judgment to resolve problems
- Perform, Educate and Document Daily Field Level Hazard Assessments
- Perform, Educate and Document Daily Equipment Inspections
- Perform, Educate and Document Daily Light Vehicle Inspections if Provided a Company Vehicle
- Works with employees, supervisors, and management to identify potential hazards
- Encourages and promotes a safe work culture with a positive attitude and team approach
- Performs various levels of worksite inspections and audits and follows through with appropriate levels of coaching and support for all corrective actions
- Investigate incidents, near misses, and hazardous conditions. Complete incident causation analysis, develop, implement, and follow up on corrective actions
- Participate in toolbox meetings, weekly safety meetings and client and HSE team meetings as required
- Assistance in creating Job Safety Analysis and perform updates as conditions and processes change
- Maintain a working knowledge of current OH&S legislation, Federal and Provincial laws as well as company standards and policies
- Provide mentoring to workers and leaders in maintaining safe work habits and practices
- Participate and contribute with ongoing procedural, policy and other documentation development and updates as required
- Proactively identifies leading indicators and trends in the field and communicates the same back to the field and corporate
- Investigates incidents and near misses with foremen and other key management
- Communicates established policies, practices and procedures to workers and remain informed on changes provided by the Operations Manager
- Documentation Control for all safety and environmental related items associated with your work project
- Possess a Valid Driver's License (class 5 or equivalent)
- Operate and Maintain in a Professional Manner, any Kettle River Contracting Provided Assets including Cell Phones, Computers and Vehicles
- Adhere to all Kettle River Policies
- Train, Mentor and Lead other Employees
